TalentSorter™

Hire great people, faster!

Applicant selection has never been easier with our **FitScore**® helping you quickly identify which candidates are ideal for the role.

Because that stack of resumes is high and there are only so many hours in a day, TalentSorter provides the added insight you need to make the right recruitment decisions, fast.

Smart technology

It all starts with our integrated applicant screening process, which is backed by cutting-edge behavioral science and human analytics to generate a uniquely accurate **FitScore** for every candidate.

What does the FitScore® tell you?

The intelligence behind TalentSorter's FitScore goes beyond the resume to measure key soft-skills and behavioral traits, giving you a much greater sense of who a person is and what 'stand out' qualities they will (or won't!) bring to the job.

Putting speed behind your decisions

You'll see each candidate's FitScore beside their name after they apply for the job, allowing you to begin sorting applicants before you even open their resumes.

Not only are screening decisions made with greater accuracy, TalentSorter saves you time too – helping you avoid those *'waste of time'* interviews with people who look great on paper, yet simply aren't a good fit with your company or your expectations for the role.

Results at your fingertips

All that data behind TalentSorter's FitScore is simplified in an easy-to-follow **Job Fit Report & Interview Guide**, providing hiring managers with detailed information for each applicant (viewed on-screen or in a shareable pdf).

Enjoy the benefits!

In addition to making recruitment more efficient, TalentSorter users ultimately reduce turnover as they discover better candidates who are a true 'fit' for the job. As well, the FitScore helps bring people to your attention who you might have otherwise ignored – so you can spot those hidden gems who aren't as shiny on their application, but are actually a great match for the role!

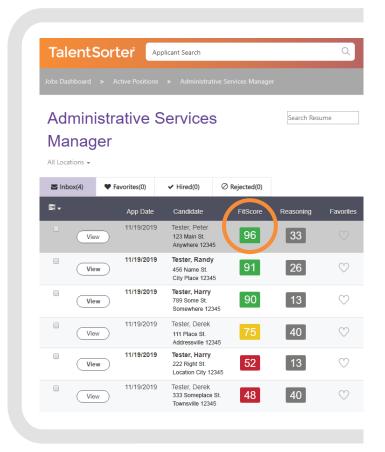

- **Job Fit analysis & Interview Guide for every applicant**
- **Have multiple users across several locations**
- **Discover better people, do fewer interviews**
- **Integration options available with your existing system**
- **Improve post-hire outcomes & reduce turnover**
- **Hassle-free reference checking with Reference Getter™**
