

We're changing the game, so you can

CHANGE THE WORLD

Patented Job Matching Technology

We're on a mission to change the world of work.

In a world bursting with hidden talent, we're rewriting the hiring and career discovery script. Our patented technology plays matchmaker, connecting job seekers with perfect opportunities, while employers find ideal candidates with the right skills and culture fit.

Economic development/intermediaries super charge their workforce. Employers find their superstars. Job seekers unleash their full potential. The result – less turnover and better performance. By bringing together the right people and the right jobs, we're creating a better world for all.

You can't afford to hire the wrong people.

Find top applicants before setting eyes on a resume. TalentSorter® is your shortcut to finding the right person for the job. Using advanced human analytics and behavioral science to pre-screen applicants by assessing core personality traits, attitudes and soft skills.

Don't just unlock potential, kick the door down.

Aptitude is evenly distributed, opportunity is not. Whether you're a student exploring career paths, a job seeker getting overlooked, or an employer determined to revitalize an existing team, Jobtimize® helps identify untapped strengths and learn how to make the most of them.

Put reference checks on autopilot.

Reference checks are a great way to discover truths (and maybe some fibs) about potential hires, but they take time. Reference Getter® saves you a ton of hassle by automating the process, so you can get the valuable information you need without making a single phone call.

Let's build a workforce to be reckoned with.
